

4 GOOD REASONS

- mobile Robot station
- location flexible LWR-/HRC solution
- universal vor many LWR-/HRC variants qualified (manufacturer-neutral)
- very easy handling with high stability and easy rolling

FACTS AND FIGURES

Footprint total (HxBxT)	ca. 1.030 x 595 x 955 mm (Höhe ohne LBR)
Weight	ca. 200 kg
Stability	dynamic HRC application
Voltage supply	230 VAC

SUITABILITY

Applications	semi-automated production lines in small parts production flexible pick and place tasks mobile inspection tasks collaboration with hand work stations
--------------	--

FEATURES

Base frame	mobile robot station milled base plate (boreholes and attachments customizable) 2 doors (lockable) 4 quick fixing rollers with handwheels power plug with cable rewind (further equipment variants available on request)
