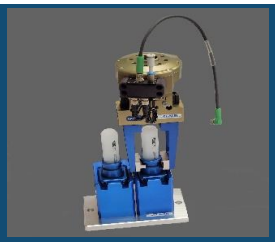
PrimPen-1000

Changing system
for primer preparation



4 GOOD REASONS

- Cost-effective and simple automation solution
- Precise, clean application
- Reliable repeatability
- Reduction of exposure to hazardous materials/solvents in the immediate environment of the employees

SUITABILITY | WECHSELSYSTEM

- Easy integration into the automated application process of self-adhesive media such as: Adhesive tapes, mounting and bonding foam tapes.
- Application of different viscous media possible via the marker´s pump system

  - e.g. for greasing before gluing processes etc.
- Several units of pen and quiver can be combined, e.g. for the application of different media
- Enables long autonomy times

FUNKTIONALITY

The Set Primer-Pen exchange system consists of

1 Primer pen receptacle for marker pens, which can be filled with 20 ml of liquid
2 Clamp holder with quiver (2-fold)
3 Primer-Pen gripper (gripper)
